Good Day Jeremy and Jenni,

I hope this finds you well as the holiday season approaches.

With this communication I have attached an Advisory Panel Report that was developed from information presented by a Lumbee citizen's panel and presented to the Lumbee Tribal Council Health Committee on October 6, 2017.

To the Committee Chair's credit she responded positively to tribal citizens' request for a hearing of information and concerns after a presentation by Dominion representatives on October 2.

This report does not represent any position of the tribal government or administration. It is a representation of citizen input and viewpoint that is a product of tribal citizen engagement.

Issues specific to the Lumbee community was discussed and recommendations made by the panel members. These address issues that are not dissimilar to those that face North Carolina state government and administration. It is no simple task to fulfill the responsibility of providing for the common good of all. NC and Lumbee tribal citizens are fulfilling their responsibility to engage with and support leaders and decision makers in those efforts.

In light of the meeting that is scheduled next week on Tuesday, December 19 with the Attorney General's office, it is our desire to share this document with you for your information. It will be presented to Mr. Stein's office as a part of the materials shared in the meeting. A hard copy will be delivered to Governor Cooper as well. Please feel free to share this copy with him if his does not arrive until after the meeting.

If you have any questions, I can try to answer them and/or connect you with the appropriate person to do so.

Thank you for the time you may take to read and consider this report.
